Office of Traffic Safety

Grant Funding Letter of Interest Traffic Safety Programs

The Office of Traffic Safety invites government, non-profit, and community organizations to submit proposals for funding consideration for projects or programs that reduce fatal and serious injury crashes in our communities and on Nevada's roads. A Letter of Interest (LOI) can be submitted to our office from January 22, 2018 through the end of the grant application period on March 13, 2018 for traffic safety projects or programs to support Nevada's Highway Safety Plan. The LOI does not replace the application process and is not a guarantee of funding; however, it provides community partners an opportunity to have their ideas and proposals considered in advance of completing the full application. It is only necessary to provide a summary proposal and estimate of funds in your LOI; **submission of an LOI is mandatory prior to application for grant funding.** If your proposal is approved for further consideration you will be eligible to complete the Office of Traffic Safety grant application; all existing grant funding requirements apply.

Please visit The Office of Traffic Safety's online grant management portal at <http://egrants.nv.gov> to submit an LOI, or complete the LOI template and email to tsafety@dps.state.nv.us. If you need assistance with the eGrants portal please contact Shelley Fleming at (702) 432-5080 or sfleming@dps.state.nv.us. For questions about traffic safety grant projects please contact the Office of Traffic Safety at (775) 684-7472 or tsafety@dps.state.nv.us.

Grant funds are provided by the National Highway Traffic Safety Administration for education, enforcement of traffic laws, and adoption of safe driving behaviors that address Impaired Driving, Seat Belt/Child Safety Seat Use, Motorcycle and Moped Safety, Pedestrian and Bicycling Safety, Distracted Driving, Traffic Records Data Collection, and Teen Safe Driving.

The Office of Traffic Safety is specifically interested in proposals that address the following:

- Adult and teen seat belt usage
- Impaired driving, riding or walking
- Speeding and aggressive driving and riding
- Pedestrian safety for pedestrians and drivers
- Distracted and drowsy driving
- Traffic safety research and improved data collection capabilities

Projects and programs that introduce innovative ideas or best practices with measurable outcomes are encouraged, as are programs that foster collaboration amongst community resources. Thank you for your interest in saving lives through improving traffic safety in Nevada and we look forward to hearing from you.
