## 1. Nevada Office of Traffic Safety (OTS) Mission

### ***Mission***

The mission of the Nevada Office of Traffic Safety is to eliminate deaths and injuries on Nevada's roadways, so everyone arrives home safely.

### ***Program Funding***

Pursuant to Nevada Revised Statute 223.200(2), and designated by the Governor, the Nevada Department of Public Safety (DPS) is responsible for applying for and administering federal highway safety funds awarded to the State to conduct the highway safety programs of the State. The Director of the Department serves as the Governor's Representative for Highway Safety and has designated the Administrator of the Office of Traffic Safety as the Highway Safety Coordinator. To accomplish this task, the Department of Public Safety, Office of Traffic Safety (DPS-OTS), along with partners and stakeholders, develops and implements Nevada's Highway Safety Plan (HSP) that identifies critical highway safety issues and problem areas in the State. DPS-OTS works with state, local, and community partners to build programs and to solicit proposals for projects to address identified problems. Funds are awarded to state and local government and non-profit agencies to implement evidence-based traffic safety programs and projects. Programs are also supported using State funds, grants received from private organizations, and FHWA funds passed through from Nevada Department of Transportation, as allowable.

***This report summarizes the planned projects and activities of the FFY 2026 Highway Safety Plan.***

DPS-OTS annually awards federal funds to state, local, and non-profit organizations to partner in solving identified traffic safety problems. Funds awarded are strictly for use in reducing deaths and serious injuries caused by motor vehicle crashes through the implementation of programs or strategies that address driver behavior in the priority problem areas. These program areas are:

- Impaired Driving
- Occupant Protection (seat belts and child safety seats)
- Pedestrian and Vulnerable Road User Safety
- Traffic Records
- Distracted Driving
- Young Driver/Older Driver Safety
- Speed
- Motorcycle Safety
- Roadside Safety

## 2. Highway Safety Plan Updates

Adjustments to our current countermeasure strategies includes additional programming for FY26, including expansion to our Tribal traffic safety partnerships.
